VOL. CVXIIII.—71. ALEXANDRIA, VIRGINIA, TUESDAY, MARCH 25, 1913. PRICE, 2 CENTS

FATHER AND SON PREPARE FOR CHAIR

Floyd and Claude Allen to be Electrocuted Next Friday Morning.

LAST EFFORT FOR MEN

Only Hope for Condemned Men Lies With Governor—No Indications of Change in Latter.

Richmond, Va., March 25.—Floyd and Claude Allen, father and son, prepared today to expiate in the electric chair on Friday their participation in the Hillsville court room murders. Their attorneys returned from Washington today after a last desperate effort to have the justices of the Supreme Court of the United States stay the death sentence. The condemned men's only hope now is Governor Mann of Virginia, and that this is only a faint one is evidenced by the fact that the state executive has already twice previously refused to intervene despite thousands of appeals made to himb by letters, telegrams and personal conferences.

Superintendent Wood went ahead with his preparations for the electrocution at Richmond prison today. The "death jury" has already been selected, but their names are being kept secret. The Virginia law prohibits publication of the details of an execution, and every effort will be made to seal the lips of the twelve men who are selected as legal witnesses to Virginia justice.

The Allen's lawyers were expected to confer with their clients this afternoon. As yet they have no information as to the failure of their counsel to secure a stay.

Governor Mann today received a resolution unanimously adopted by the State Prison Board urging him to commute Claude's Allen's death sentence to life imprisonment. The Governor took no action on the request today and it was generally believed he would ignore it.

LEFT MORE THAN HE TOOK.

Lodger Breaks Into Bedroom on South Royal Street And Steals Small Change.

The police have been notified that a stranger who had secured a room in a house on south Royal street Sunday last night broke into a bedroom and stole some small change. He evidently became frightened and left in a hurry, as he abandoned a magic lantern appartus, valued at about $5, and a pair of shoes. These articles are at the station house.

ANOTHER STORM FORMING.

Decided Drop in Temperature Expected After Disturbance Shall Have Passed.

The havoc was caused in the Middle West not by a single disturbance, but there were a series of equinoctial gales of varying intensity which swept through Missouri Valley and Middle West, leaving ruin in their path. At least six States sustained heavy damage. Towns in Iowa, Illinois, Kansas, Oklahoma and Missouri were shaken.

Another storm is now developing west of the Rocky Mountains and is predicted to pass over the east tonight or tomorrow.

Storm warnings from Hatteras to Eastport on the Atlantic and cold wave warnings in the West Lake region, the middle and upper Mississippi valleys have been ordered up.

No decided fall in temperature is predicted for the East until after the passage of the new western storm.

According to the United States Weather Service it was said last night that here appeared to be little danger that the storm which had been destroying lives and property in the Middle west would strike this latitude.

The storm has taken a northesterly course and is now sweeping up the St. Lawrence Valley. The highest velocity reached by the wind in this vicinity yesterday was 24 miles and it is not expected to go any higher at this time.

Later, when the police pushed through the mob of 2,000 or more colored in and about Wiley Court, he was unconscious and bleeding from a dozen wounds. In the Casualty Hospital it was thought his skull was fractured.

How to distribute 10,384 jobs among 131,530 applicants for office and keep everybody in good numor is the big problem for immediate solution confronting President Wilson and the members of his cabinet. By a canvass of the situation Washington statistical experts have discovered that one man in every 47 who voted for Woodrow Wilson is now out for a federal position. If this is true, there will be exactly 121,146 disappointed office-seekers when the jobs have all been filled.

SOLDIERS ON DUTY

Churches, Halls, Stores, Etc., Used to Shelter Homeless—110 Dead and 1,669 Homes Wrecked.

Omaha, Neb., March 25.—With ground and making the further work groundand making the further work of rescue in the path of Sunday night's tornado more difficult, Omaha today presented the appearance of war times. An entire regiment of militia is patrolling the storm district, aiding the regular United States soldiers from Fort Crook in the clearing work.

Every church, auditorium, hall and empty store room is being used to house the homeless victims.

After a careful check of undertaking establishments early today, it was found that there are 110 known dead in Omaha.

The rescue work will proceed among the ruins today, as not more than one-fifth of the wrecked homes have been touched.

Wholly or partially demolished homes number 1,669, according to figures compiled by the relief committee. The figures do not include churches and schools and private mercantile institutions.

Three city officials are authority for the statement that the wrecked homes alone represent a property loss of $5,000,000.

This figure connected with the value of other property, such as railroads, wires and nails, raises the entire loss to $10,000,000.

The combined property loss in Western Iowa, Council Bluffs, and Omaha is $11,000,000.

There are 2,179 people made homeless by the tornado, and these are now being cared for at the relief stations.

According to the figures compiled at the scene of the storm, 263 people have reported themselves destitute and dependent upon the aid of the state or county for relief.

Wagons, loaded with clothing and food, are drawn up in long lines in front of the relief stations awaiting for those with credentials to call upon them for supplies.

UNVEIL MEMORIAL PICTURE.

Painting in Memory of Former Alexandrian Unveiled in Atlanta.

According to the Atlanta Constitution, St. Luke's Cathedral in Atlanta was crowded to overflowing at Easter morning service to witness the unveiling of a mural painting in memory of the late Rev. Robert South Barrett, D. D., an alumnus of the Theological Seminary near Alexandria and a frequent visitor to this city in the years following his graduation.

The picture hangs in an alcove behind the altar. It is 18 feet high and 15 feet in width. It was painted by Edwin Howland Blashfield, one of the most noted and gifted mural painters in the world.

The painting represents the "Buon Pastore," or "Good Shepherd." In the center is Christ as a shepherd, while behind Him follows the sheep. The idea came toMr. Blashfield after seeing the shepherds in the east among the mountains. There are five medallions, two on either side and one above the centerpiece. The four medallions on the side represent the four symbols of the Evangelists, the Bull, the Lion the Eagle and the Angel. The medallion above the center is the "Word" represented by an open Bible held by angels. The border is gothic, in keeping with the interior decorations of the church.

Bishop Nelson made an address on Dr. Barrett's work in the ministry and of his labor in the church while dean of the Cathedral.

PRESIDENT WINS DECIDED VICTORY

Insists That People, Not Politicians Have Final Say on Tariff.

DEFER TO EXECUTIVE.

Will Expedite Reduction—Mr. Wilson Tells Uuderwood That he is Pledged to Reduce Cost of Living.

Washingthon, March 25.—President Wilson,through his unofficial declaration that he would insist on the people and not the politicians having the final say in revising the tariff has won a sweeping victory. It developed today that the congressional leaders have agred to subordinate the opinions to the Executive. The Wilson wishes will be the "final word" in the bill, or bills, to be passed at the coming extraordinary session. And the leaders, in both the senate and the house, have agreed that tariff reduction will be expedited so that such other legislation as the President desires may be considered in the special session.

At the executive offices today President Wilson characterized his conference with Leader Underwood last night as "eminently satisfactory." He said that whether the revision shall take the form of a single blanket bill or a series of measures remains undecided. But as a general thing, the President said, the suggested revision is all the party has pledged itself to carry out.

The President flatly told Leader Underwood that he was elected pledged to reduce the high cost of living. This pledge, he said, must be kept in its entirety. The Wilson plan is to take the tariff off foodstuffs in nearly every instance.

One result of this action will be the abolition of the tariff on meat products. This will prove a smashing blow at the beef trust. Instead of selling meat abroad cheaper than it does here at the present, the trust, under the new tariff, will have to face competition from the Argentine ranches. Figures already prepared indicate that the actual cost of beef will thus be reduced one-third over prevailing quotations.

Underwodo confirmed the belief that the President was to have the finally say by declaring that the tariff bill was not exactly what I would have drafted if there had bene my wishes alone to consult." Underwood, however, insisted that there would be harmony so far as the tariff was concerned between the legislative and executive departments.

Schedule K, the wool protective feature of the existing law is to be practically wiped out, although there will probably be retained at least a nominal duty on wool. This, like the meat schedule, is one of the provisions the President believes must be practically obliterated if the party pledges are to be kept. Just how much of the duty is to remain on wool was another matter postponed until the next conference.

TROUBLES IN SUBURBS.

Outlying Places Often Realize Need Of City's Police Officers

The rapid growth of the country bordering upon Alexandria—west, north and northwest—renders it more and more necessary for proper police protection. So long as things are tranquil, dwellers upon the suburbs are prone to laugh at the just commands of the city for the annexation of certain outlying territory, but when disorders occur, or more serious scenes take place without the city limits, or when fires break out, Alexandria is expected to come to the rescue, and the city generally responds.

Of late, however, the Police Court of Alexandria has not regarded it as incumbent to entail the expenditure of money and time incident to handling of criminal cases which occurr in Fairfax and Alexandria counties adjoining the city, and on several occasions that tribunal has declined its services when persons charged with offences have been brought to the bar in this city, notwithstanding the fact that the city's police jurisdiction extends one mile.

Should a citizen of Alexandria, however, be the victim of murderers, highwaymen or assailants of any class, within the mile jurisdiction, the Police Court would regard it as incumbent to handle the case, as the tribunal should act for the protection of the people of this city. But where the parties implicated reside within the city limits, the authorities of Alexandria and Fairfax counties will in future dispense law.

A few days ago a negro employed at the Virginia Glass Works in West End, was seriously cut by another employd. Justice Caton declined to handle the case and suggested that the authorities of Fairfax county should dispose of it.

Another case was before the Police Court this morning in which a similar statement was made by the justice. A colored woman had been arrested by the special officer at the Union passenger station for alleged disorderly conduct. The officer was told that he would have to take the prisoner before a justice of Fairfax county.

Of course, parties charged with offences in Alexandria and Fairfax counties will be arrested and detained for the authorities in these places.

CITY FATHERS TO MEET

Semi-monthly Session of City Council Will Be Held Tonight

Both Boards of the City Council will meet tonight. Most of the business to be presented, will, it is expected, be of a general nature.

Measures looking to street improvements have already been formulated, and as soon as weather conditions become settled the work of laying new roadways and sidewalks on certain squares will be commenced.

The anxiety occasioned recently by deaths from dog bites has caused Councilmen to turn their attention towards measures which will minimize, at least, the danger incident to vicious dogs roaming at large throughout the city. There are always sporadic cases in the state where deaths occur from dog bites. Recently, however, two Alexandrians have died from such injuries, and it is realized that the time has come for some drastic action upon the part of the lawmakers.

It is a difficult matter, however, to eliminate the danger incident to the toleration of dogs in a city. Some municipalities will not allow canines upon the streets without being under control—that is by chain, rope or strap—and other cities insist upon the owners muzzling the brutes. Some suggest if people will persist in harboring dogs they should be kept upon the premises of their owners, and if caught running at large the police should destroy them.

A few Sundays ago a carriage containing two young ladies stopped at the postoffice when one of the occupants went into the office for mail. After she had re-entered the carriage a huge bulldog came along and jumped at the throat of the horse. The brute barely missed its aim. Had it sunk its teeth into the equine it would have been difficult to have forced the brute to relax its hold. That proper safeguard from such dangers should be adopted at once must be apparent to all.

ALEXANDRIAN INJURED.

Julian Barkley, of Alexandria, was painfuly injured a few days ago while at work in the Essex Glass Works, Mount Vernon, Ohio, by a box weighing two hundred pounds falling upon one of his legs. He is gradually recuperating from his injury.

New Spring Millinery for Every Occasion

Simplicity is the keynote of the new Spring Millinery modes. It is more pronounced this season than we have ever seen it, and the splendid exhibit of the new models which we now present offers a selection for every requirement and occasion. Both the outline and the trimming share equally in this simplicity, though the latter is very often novel, unusual, and sometimes complicated. Striking combinations are employed, and yet they are applied with such cleverness and discretion that there is no hint of obtrusiveness, but modest refinement prevails.

DRESS HATS.—Styles suitable for afternoon, evening, church, calling theatre, and restaurant wear; a most interesting series of styles, infinitely varied. Never was diversity greater, beauty so marked, simplicity so admirable.

TAILORED HATS.—Hats for wear with the street costume, the tailored suit, walking and the outdoors; numerous new models that give distinction to our modes; mostly the close-fitting effects with straight-line trimmings.

MOURNING HATS.—Plain black and also the new white Mourning Hats; modes of stylish refinement, but of a tone entirely possessed by mourning millinery. They follow fashion as closely as any hats in our display.

d Six Chairmanships in Sixty-Third Congress.

in a half century has Virginia s strongly intrenched in power House and Senate with commit- airmanships, committee assign- and by strong floor debaters as ll be in the Sixty-third Congress. half of her delegation of 12 rs in the two branches of the al Legislature will head im- t committees; two of the re- g six are ranking members on important committee berth, and irst termers—have not been as.

The lone Republican, Repre- ive Bascom Slemp, of the Ninth ct, will probably be a minority ber of the Ways and Means Com- e.

the Senate, Virginia has in Sena- Thomas Staples Martin the chair- n of the Appropriations Committee, which passes year in and year out on 00,000,000 expenditures to be made by the government. This committee is recognized as one of the most pow- erful in the upper chamber. The Fi- nance Committee is considered a more important body, but it only has heavy work to do every four or five years, whereas the Appropriations Commit- tee has important duties to perform ev- ery session. Senator Martin is also a member of the Claims, Commerce, District of Columbia, Expenditures in the Depatrment of Commerce and Labor. Expenditures in the Navy De- partment and Fisheries. He is a mem- ber of the Democratic Steering Com- mittee, which has the appointment of Democrtic members of the committees.

Senator Claude A. Swanson is chair- man of the Public Buildings and Grounds Committee, which passes on appropriations for Government build- ings and improvements. He is also a member of the Committees on Educa- tion and Labor, Expenditures in the Interior Department, Foreign Rela- tions, Indian Depredations, Naval Affairs and Post Office and Post Roads. The latter two committees are regarded as good berths.

In the House, Virginia will hold four chairmanships. Congressman William A. Jones, dean of the Democratic side, is chairman of the Insular Affairs Committee, which will have to handle the Phillippine problems for the Wi- son administration. This question promises to be one of the biggest in this administration.

Congressman James Hay is chair- man of the Military Affairs Commit- tee, in charge of the army problems; Congressman Henry O. Flood, is chair- man of the Foreign Affairs Commit- tee, intrusted wth the work of hand- ling diplomatic legislation; Congress- man Carter Glass is slated for the chairmanship of the Committee on Banking and Currency, which has the titanic job of framing a new monetary system for the nation, as well as con- tinuing the investigation into the Money Trust. Mr. Glass is now chair- man of the subcommittee which has gathered information and opinions from one end of the country to the other relating to plans for recasting the currency laws.

In Congressman E. W. Sanders Vir- ginia has a member of the House Ap- propriations Committee, which makes all original recommendations for gov- ernment expenditures. In Congress- man C .C. Carlin the state has a mem- ber of the Judiciary Committee. Con- gressman E. E. Holland has assur- ances of a berth on either the Naval Affairs or the Rivers and Harbors Committee.

The two unassigned members are former Governor Andrew Jackson Montague and Judge Walter A. Wat- son. Both of them are new members. Congresman Montague will probably be placed on the Merchant Marine and Fisheries committee,which is now con- ducting an inquiry into the "shipping trust" with a view of forecasting the maritime laws of the country. Gov- ernor Montague is an authority on such subjects. He was a member of the International Maritime Conference which met at Brussels several years ago. He was also a delegate to the Pan-American Conference at Rio Janeiro, which was held to promote better trade relations between the United States and her sister countries to the south. Congressman Watson, if the Beattie murder trial fame, de- sires a berth on either the Postoffice or Agricultural Committees.

NEW CHURCH COMPLETED.

Edifice Cost $60,000—Initial Services Last Sunday.

Harrisonburg, Va., March 25.—The Harrisonburg Methodists Sunday held services for the first time in their new $60,000 church on South Main street, which has just been completed. Bish- op John C. Kilgo, of North Carolina, preached in the morning on the Res- urrection, and at night on Church membership. At the morning service $20,147 was raised toward paying for the church, which will not be dedi- cated until the debt is wiped out. The official board presented the pastor, Rev. Dr. H .H. Sherman, with an ele- gant Hamilton gold watch. Dr. Sherman completes this week his fourth year at this charge.

A memorial window in honor of the late Rev. Dr. S. K. Cox, one of the most distinguished divines of the Bal- timore Conference, was presented to the church by friends of that lament- ed minister. There are many other memorials in honor of prominent members of the past.

Ground was broken in June, 191, and the building begun in April, 1912.

The church is of Gothic architec- ture, 88 by 135 feet, with cut stone trimmings, a massive 90-foot tower at the northeast corner and two sec- ondary towers. The roof is of slate with copper trimmings. The audito- rium,which will seat from 450 to 500, has eight memorial windows and will be lighted with the most approved modern "eye-comfort" system, in which all of the lights are out of sight. The organ and choir space are behind the pulpit, and will accommo- date about 30 singers. A large Estey pipe organ is used.

The Sunday school room is 48 by 42 feet, semicircular in shape, sur- rounded by classrooms, double-story, with various seating capacities from 15 to 75. In all there are 20 class- rooms, besides pastors' study, choir- rooms and ladies' parlor. The total seating capacity of the Sunday school room and auditorium when thrown together is about 1,200.

The social hall is 60 by 60 feet, hav- ing adjoining toilets, kitchen, serv- ing room, with range, steam table, closets, cupboards table linen, table silver, china, etc.

SHIP DISABLED.

Passengers on Gulf Liner Texas Taken off by Danish Vessel.

Newport News, Va., March 25.—A wireless message received here from the Danish steamer Tietgen brought the first news of the disabling of the Norway_Mexico Gulf Line steamer Texas and the safe transfer of the 43 passengers to the Tietgen in midocean Saturday. The Texas, with every blade of her propeller carried away, is thought to be en route to Fayal in tow of the British steamer Francisco.

Although the wireless was sent Sat- urday morning, it did not reach here until Sunday night, and was not made public until today. Nothing further has been heard. The Texas left Chris- tiana for Newport News March 5. The passengers are being taken back to Christiana. The Francisco. which is towing the Texas was bound from Antwerp for Boston and New York.

Gordon, assistant cashier of the Seaboard Air Line Railway, in Ports- mouth, 10 days ago. Gordon was hit on the head with a hammer, robbed an dthrown unconscious into an aban- doned ice box. Dwyer is now in jail in Portsmouth awaiting grand jury action. The stolen money has not been recovered.

Hanging From Tree's Limb.

Richmond, Va., March 25.—The body of Henry Briel, the retired butcher, 80 years old, who disappeared from his home, on Kensington avenue, Feb- ruary 22, was found hanging from a tree in the woods east of Upham Brok, in Henrico county yesterday morning by D. C. Bailey and L. C. Terry, of South Laurel street, who were strol- ling through the woods on the farm of Mr. Broadus. Identification was made by the watch in his vest pocket. No reason is known for the aged man's act. His widow, who is 65 years old, is prostrated with grief.

BUNCO GAME SPOILED.

Virginian in New York Saved by Ar- rival of Detectives.

New York, March 25.—G. D. Kelly came here from Norfolk, Va., in the hope of getting treatment from Dr. Friedmann. He had only $70, so he put up at a Mills Hotel. The Vir- ginian was craning his neck in various dirtctions at the corner of Thirty_first street and Sixth avenue today when William Nelson, known to the police, cameup and asked to be directed to Grant's Tomb. He said he was from the far, far West and did not know the town.

Kelly was trying to direct him to Riverside Drive, when Harry O'Dell, another well_known police character, appeared. Nelson told Kelly that O'Dell was one of the richest racetrack men in the world. O'Dell said he was just on his way together in more money.

Kelly drew all his money from his clothes and asked to be allowed in. Just as Nelson took it Detectives Mur- phy and Kenney jumped the two bunco men and arrested them. They were taken to the Jefferson Market Police Court, where Kelly got his money back.

ATTORNEYS GIVE UP BATTLE.

Failing to Get Writs From Supreme Court, They Leave for Rich- mond.

Attorneys for Claude Allen, under sentence to die in the eletric chair at Richmond, next Friday, have apparent ly abandoned their efforts to secure a stay of the execution by legal methods and have returned from Washington to Richmond.

After Chief Justice White and As_ sociate Justice Hughes each had de_ clined to grant a writ of error and a supersedeas, the attorneys, D. C. O'- Flaherty and R. H. Willis, stated that they would appeal to each of the jus_ tices of the court in his turn, until ev- ery member of the court had denied their application or they had secured the writ.

hTe two attorneys were in the Su- preme Court yesterday, and after the court adjourned they went to the Uni- versity Club and had a long confer- ence. They declined to discuss the case, but intimated that they were planning another move in the interest of their clients. But it was learned last night that shortly after the con_ ference the attorneys left the club, say ng they were going home, and it is assumed that they had been advised that further appeals to the justices of the highest court would be fruitless.

Schooner Deserted and Adrift.

Hobile, Ala., March 25.—A new mystery of the seas is seen here today in a brief wireless message from a vessel off Pensacola, Fla., that she had picked up a three-masted schoo- ner sailing along without a single liv- ing soul aboard her, and without any trace of her crew. The message, which was interrupted, did not give the name of the vessel, but said that her sails were set, the cargo undis- turbed, her hold water-tight—but there was no sign of her crew.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of cur- ing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous suc- cess of the well known liquid eczema remedy, oil of wintergreen, thymol, gly- cerine, etc., as compounded in D.D.D. Prescription.

We have sold other remedies for skin troubles but none that we can recom- mend as highly as this for we know that D.D.D. stops the itch at once. We can give you a trial size bottle for 25 cents that will be enough to prove it.

Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.

But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee:—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

THE GIRL WHO WORKS NOT THE GIRL WHO ERRS.

No greater wrong was ever committed in the name of reform than that to which the Illinois vice commission, which held a meeting in Washington on last Saturday, has resorted. We are not familiar with the conditions in Illinois that brought about the appointment of the commission but we do know after hearing Saturday's proceedings, that the commission, as now constituted is neither fair or impartial and that nothing of practical value will result from the investigations they are making.

In the first place the members of the commission have already reached a conclusion from their superficial investigation of the subject in Chicago and the examination of a few hundred witnesses, that low wages is the principal, if not the entire reason, for the first downward step taken by girls and that, therefore, by the adoption of a minimum wage for women the social evil will be practically eradicated. To sustain this theory they are bending creation to its support, and are placing the working girls of America under one of the most shameful indictments to which they could be subjected.

During Saturday's hearing witnesses who have had years of experience in dealing with the social evil, women of national reputation as authorities on the condition of working girls were not given an opportunity to express their real opinions on the subject under investigation unless they were first willing to agree with the members of the commission that a minimum wage was the universal cure, not only for poverty but for the social evil and white slavery. The hearing was not so much an investigation of true conditions in Washington as it was an attempt on the part of members of the commission to gain support for their campaign for a minimum wage. Practically every witness before the committee agreed that a minimum wage was desirable but there was naturally strong objection to the attempt to couple low wages with vice, to say that on so much a week a girl can be honest, or less than so much a week they must be dishonest.

Vigorous protest was made by a representative of the National Florence Crittenton Mission, whose headquarters are in Alexandria against the views of the commission and the statement was made that among the 20,000 or more girls who have been inmates of the Florence Crittenton homes low wages as a reason for their downfall, was given by very few.

The attempt on the part of the Illinois vice commission to reduce the question of sexual morality to one of whether a girl gets $4 a week or $8 a week is ridiculous. It is possible that among a thousand there will be a few who would have kept on the path of virtue if they had been getting $8; it is equally true that among those getting $8 some would have remained virtuous if they had been getting $10 and so on up the scale until we reach Becky Sharp who fixed her wages on the moral scale, at $25,000 a year.

The world has little to fear from the girl who works for a living as one who will spread the poison that is eating so deeply into our national existence. But in the class above her, the fairly well to do, the girl who lives in idleness, will be found a large percentage of the moral delinquents where the question of wage does not enter into consideration. Women who toil long hours for pittances are not the ones who degrade their sex and the attempt on the part of the Illinois commission to make industry a badge of shame will be unsuccessful. If we are to have a minimum wage and the sooner this can be brought about the sooner we will be pleased, it should come to the working women of America as compensation for useful service and not as a bribe to decency.

TERRIBLE WORK OF THE ELEMENTS.

The terrible havoc wrought by the elements in many states of the union during the past few days shows that man, notwithstanding his many conquests of nature and his weather bureaus is still as much at the mercy of Aeolus, Jupiter Tonans and Jupiter Pluvius as he was in the dawn of history. Several hundreds of persons have been killed outright, thousands are homeless and the property damage runs far into the millions.

Descriptions given by eye witnesses of the terrible work of the elements are horrible as well as thrilling—wind, rain, thunder and lightning augmented by midnight fires and the refugees huddling together for shelter after homes and all their effects save that upon their backs had been swept away.

In many cases the accumulations of a lifetime—in the shape of humble dwellings—were converted into kindling wood with heir former occupants buried in the debris groaning and shrieking for deliverance.

Considering the area of the United States—its northern limits being the frigid zone and its southern protruding into the tropics—the country is not often the scene of elemental horrors. Earthquakes, tidal waves and death-dealing storms often visit other quarters of the world, while our own country for years in comparatively immune from wholesale disturbances. Occasionally however, disasters, similar to these given above bring to mind the fact that we have no right to suppose all calamities must necessarily give us the go-by.

RARE BREEDS OF CHICKENS.

Miraculous Powers Said to be Shown By Certain Specimens.

Many years ago what was known as the Shanghai fever was epidemic in this country—when chicken fanciers would not rest until they had imported a bred of fowls in to the United States known as Shanghais. They were of the yellow variety and feathers extended down their legs.

Ever and anon certain people who interest themselves in raising fowls rush into print in order to tell of the miraculous traits of their so-called improved breeds. Several years ago an Alexandrian, an enthusiast on chicken breeding, often sent communications to the Gazette setting forth his experience with the feathery tribe. He ceased sending in his favors when a well known resident of King street had an account printed concerning a breed he said he was maturing. He stated that his fowls were laying eggs five to a link, and that he had a patent nest which caused an egg to disappear as soon as the hen had deposited it. The latter upon turning to view its production and finding the egg missing, would again fix herself upon her nest and lay another egg. The nest would repeat its performance until it became necessary to drive the hen from the nest in order to avoid overstocking the market.

The subjoined item seems however to have cast the above into an eclipse, as hens are now on earth which it is alleged can lay boiled eggs.

Mrs. M. C. Titus, of Paulsboro, N. Y., has a hen, which she is led to believe, lays boiled eggs. Mrs. Titus retails her eggs in the borough and a few days ago, shortly after making a sale, a customer returned with a boiled egg. Mrs. Titus and the customer said neither had a boiled egg around their respective homes, and the only way Mrs. Titus could account for the egg was that the hen laid it already cooked, as the eggs were gathered fresh for the sale. She will keep a close watch in an effort to find which hen lays boiled eggs.

SMILES.

A WEEK-END PARTY.

Big Bill Jones saved six months pay,
then started for the city,
For to spend the week-end in the backwoods is a pity
When a fellow's worked for months down there cutting timber,
He just owes himself a chance to stretch out and unlimber.

Just itching for adventure, Bill started out to see
If he mixed his drinks enough, what the result would be,
So from place to place he went, loaded up for fair,
His heart was filled with merriment, he knew no grief or care.

He got into a wrangle with some sailors on the street,
The battle that ensued was quite a pugilistic treat,
And when the row was over, Bill started out to find
Some other kind of wickedness to occupy his mind.

He broke a plate-glass window, and he slapped a bar-keep's face,
And then he turned the beer kegs on and flooded out the place,
And when he couldn't see a chance to have some real strife,
He chased a negro sixteen blocks and swore to have his life.

Of course, they locked him up at last, so he no more could roam,
And when he'd paid his fine and costs he took a freight back home,
But Bill was overjoyed with his week-end holiday,
And thought that ne'er so pleasantly he'd spent his hard-earned pay.

If Grace Church roof leaks, is Rev. Edgar Carpenter enough to repair it?

If a turnip is classed as a vegetable and a cantaloupe as a fruit, is Dr. Vivian a Berry?

What has become of that Roosevelt party who used to figure somewhat in the public prints a few months ago?

Are we to understand that every one who takes a guess at that jar of money gets a lot? A frank statement from G. Wash Lewis would be appreciated.

Graphic Descriptions of Terrible Scenes Sunday Night.

Stories replete with thrills and pathos were related in Chicago yesterday by eye-witnesses of the great tornado which swept over parts of Nebraska, Iowa, and Illinois Sunday night, killing and injuring hundreds.

Terror stricken, the narrators of these stories had sat fascinated in the coaches of a Chicago, Burlington and Quincy Railroad train, watching a great dark cloud skipping fantastically in its work of destruction. In several villages they helped pick up the dead and dying.

The wounded and the slain were placed on the plush-covered seats and in the carpeted aisles of the cars until the train, which had passed through the beginning of the track of the whirlwind that struck Omaha, reached the latter city.

On the way the injured poured heart-rendering tales of suffering and vivid descriptons or escapes which seemed to them miraculous. William Coon, president of an automobile company of Linchon, Nebr., gave a graphic description as he viewed it from the platform of the observation car.

"For miles," he said, "it seemed as if the train were being pursued by the storm. We were approaching Raison, Nebr., when I first noticed a strange, copper-colored cloud mounting toward the sky. Before that it had been clear.

"The cloud grew rapidly and was traveling at tremendous speed. It assumed the form of a funnel and the air was filled with a curious noise, very piercing. Then the funnel seemed to grow black, an dthe smaller end—that near the ground—was about a half mile in diameter. It swished across the railroad track and swept toward the little town.

"Then the storm struck the town. Houses collapsed as though they were of paper. The roofs went sailing away and the sides fell in. The passengers sat as though glued to their seats when the cloud struck. Then as they comprehended the decolation wrought a cry of horror went up from every one. It was a terrible sight."

Another eyewitness told of the scenes at Omaha when the train stopped there. He said:

"I was just recovering from what I had seen on the train when we pulled into Omaha with the injured. It was night then—but such a night! The sky was lighted wth a great red glare, and the streets were filled with people who acted as "if they were mad. It was raining, a veritable deluge. Frequently the cries of the wounded unloaded at the station were drowned by terrific peals of thunder.

"The town is burning! We'll all be killed!" some kept crying, and this added to the fears of the others. There was no sleep that night for many of the passengers, and the women aboard the train were half sick with terror. As our train left Omaha we could see a big hotel burning. Its flames shot into the air like those of a great torch above the surrounding flames."

Effective Home Remedy for Tuberculosis

It is a serious matter when the lungs are affected. A trip away or to a sanatorium is not only expensive, but it involves separation from home and friends. Some are benefited, but few can safely return. Eckman's Alterative is effective for home treatment. For example:

231 S. Atlantic Ave., Haddonfield, N. J.

"Gentlemen: In the fall of 1905 I contracted a very severe cold, which settled on my lungs. At last I began to raise sputum, and my physician then told me I must go to California immediately. At this time I was advised to take Eckman's Alterative. I stayed at home and commenced taking it the last week in October. I began to improve, and the first week in January, 1906, I resumed my regular occupation, having gained 25 pounds, fully restored to health. It is now five years since my recovery has been effected, and I cannot praise Eckman's Alterative too highly. I have recommended it with excellent results."

(Signed) W. M. TATEM.

Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever; Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists

Death of Charles Lyman.

Washington, March 25.—Charles Lyman, ex-presient of the civil service commission, and veteran of forty-five year's public service in the executive department in Washington, died at his residence here today from heart failure. Lyman entered the public service from Connecticut and had held the post of appointment clerk in the Treasury Department for many years.

TARGET PRACTICE.

Guns of the Nebraska And Florida on Old San Marcos.

Norfolk, Va., March 25.—The Atlantic battleship fleet was in Tangier Sound, in Chesapeake Bay off the Eastern Shore of Virginia yesterday, with officers and men observing the use of the big guns of the battleships Florida and Nebraska in firing upon the sunken hulk of the old battleship San Marcos, once the Texas. The weather was clear, with the wind blowing only from 12 to 14 miles an hour from the southwest.

The fleet will return to lower Chesapeake Bay for its general target firing, and will be on the southern drill grounds for deep-sea maneuvers when Secretary of the Navy Daniels arrives early in April to observe them from the bridge o fthe battleship Wyoming.

Crisfield, Md., March 25.—Crisfield awoke yesterday morning to the roar of guns and the firing of cannon, when the big Atlantic fleet began its target practice in lower Chesapeake Bay, off Tangier Light. The heavy firing has continued throughou the day, and it is understood that the practice will last for several weeks.

The concussion from the big guns has wrought havoc. Windows have been smashed chimneys knocked down, and buildings have trembled on their foundations. Large show windows in the principal stores of Crisfield were wrecked.

Crisfield fishermen claim that the fish industry is being greatly damaged because the shocks kill fish within a radius of miles, and many watermen are afraid to pursue their daily occupation for fear they will get within the range of the guns.

FLOODS FOLLOW TORNADO.

The worst rainstorm in years Sunday night and yesterday followed in the wake of the tornado that carried death and destruction into southern Indiana. Four persons were drowned in swollen streams and last night practically every creek and river in Indiana is out of its banks.

Farmers have lost thouands of dollars worth of live stock.

The town of Saratoga, on the Mississinewa river, is underwater, and those homes not deserted are habitable only on the upper floor.

At Kokomo the State militia, acting under orders from Governor Ralston, is patroling the submerged sections in boats to prevent looting and to add in rescuing persons trapped in their homes.

At Marion the breaking of the Mississinewa river levee forced 500 persons to flee from their homes, while at Elwood the Duck Creek levee broke, flooding the homes of 300 persons.

Portions of Ohio and West Virginia are thretened by high water. Rivers and other streams are out of their banks. Many places have been partially inundated, encessitating hundreds of families vacating their homes.

At Youngstown, Ohio, the Ohio river last night is at a 12-foot stage and rising rapidly.

SHOES AT HALF PRICE.

State Pay's $1.50 and Enlisted Man Puts up Other Part of $3.00.

Washington, March 25.—A plan whereby army shoes made under U. S. Government inspection are afforded enlisted men of the organized militia at half price, or about $1.50 per pair, already has been adopted in Maine, Michigan, Pennsylvania, California, and Iowa. Members of the State militia throughout the United States may secure the fotogear on like advantageous terms.

Company commanders make the purchases direct from authorized manufacturers. The state pays $1.50 for each pair of shoes so issued, and the other $1.50 is deducted from the man's camp pay. Under this plan the men are allowed to retain the shoes as their personal property, whereas under the system by which shoes were issued state militiamen through the federal government they were charged against each man and accounted for on state property returns.

Shoes at half price are provided only for such enlisted men as perform duty in camp.

Richmond Hotel Auditor Charged With Theft of Money.
Eliot Declines.

Richmond, Va., March 25.—Charged in two warrants with a shortage of $2,275.19, William Jonothan Rowley, 43 years old, for the past three years auditor at the Jefferson Hotel, was arrested yesterday afternoon at St. Elizabeth's Hospital, where he had been a patient during the past three weeks, suffering from blood poisoning in his leg. One warrant charged Rowley with the theft of $1,173,38, the receipts for January 6, 1912, and the other with the theft of $1,101.81 on January 7th, this year. The prisoner swooned when the full purport of his arrest was realized. Last night he was a patient in the hospital department of the city jail, with a guard over him, as it was stated that he had threatened suicide a few days ago. It was stated that Rowley's total peculations will total $8,500.

Joseph E. Willard, president of the Jefferson Realty Corporation, made the following statement after Rowley's arrest. "A shortage in the accounts of William J. Rowley, auditor of the Jefferson Hotel, was recently discovered by the manager, who at once had the books carefully examined. The plan adopted was made possible by the holding back of checks to balance deposits withheld, and it proved temporarily succesful, despite the careful daily checking of the hotel accounts and the expert audit of the books which is made every year. The official at fault was bonded with a surety company and it is not thought that the Jefferson will sustain any loss."

An orderly at the hospital claimed to have prevented Rowley from leaping from the window a few days ago, but it is not known whether he was delirious at that time of not. Rowley is an Englishman and was married about two years ago. His domestic life is said to have been happy.

WOMEN TO HAVE VOICE.

All Citizens, Male And Female, Will Vote in Selection of Postmaster.

Washington, March 25.—Representative Carlin has decided, according to a letter which he gave out today, to try the experiment of woman suffrage in Virginia. The occasion for the experiment arose by virtue of vacancy in the presidential postoffice at Purcellville, Loudoun county, and Mr. Carlin has written a letter in which he fixed the time for the contest to begin at 12 o'clock today an dto end at 12 o'clock April 1. The conditions of the contest are that the expression of the people must be obtained by petition, and that all white democrat adult men and women shall be counted. Mr. Carlin agrees to give his indorsement to the applicant receiving the largest number upon his petition. This is the most progressive step alon gthe lines of woman suffrage that has so far been taken in Virginia, and Mr. Carlin is eagerly awaiting the result, with a view to ascertaining whether the women really like the idea of participating in politics and determining controversies among men.

60 Persons Killed.

More than 60 persons are reported killed and hundreds were injured, some fatally, by a storm of tornado intensity, which raged over central, Western, Southern, and parts of Eastern States yesterday. Property damage will run well into the millions. Definite advices have been received accounting for at least 40 persons dead, with reports from points temporarily cut off from wire communication by the storm adding hourly to the list. Reports from Alabama show the loss of life was heaviest in that State, the number of dead there being definitely placed at 28 with additional fatalities reported, but not confirmed.

To Investigate Miners' War.

Washington, March 25.—A federal investigation of the coal miners' war in West Virginia, with its long period of military law and court-martial, will be the first work ordered by Secretary of Labor W. B. Wilson, when Congress unties his hands. Definite announcement of this decision was made today by Wilson's intimate friends in the United Mine Workers' organization.

While Wilson was given a cabinet place he is at present unable legally to issue an order of any kind, nor can he do any work himself, since no money for salaries or expenses in his department was provided when the bill was passed. One of the first acts of the special session next month will be to remedy this trouble. When Wilson has control of his staff of investigators he will see that the facts which he has as union official gathered at first hands in the Cabin and Paint Creek coal fields are reported for public record. The case will then be up to Congress.

Meanwhile petitions and remonstrances on behalf of the imprisoned strikers continue to pour in upon Congressmen and Senators.
